

Privacy Policy

1. DATA COLLECTION & "OBSERVER" STATUS BOARD operates under a strict "Observer-Only" mandate. We collect and analyze data from your operational systems (CRM, Financial Dashboards, Communication Tools) solely to identify structural friction and "Operational Debt."

2. DATA STORAGE & SECURITY We do not store, duplicate, or sell your company's raw data. Our analysis is conducted within a secure, encrypted environment. Any diagnostic findings are shared exclusively with the Client's authorized leadership team.

3. NON-DISCLOSURE (NDA) The nature of a Forensic Review requires high-fidelity access. All data surfaced during this process is treated as strictly confidential and is protected by a separate Mutual Non-Disclosure Agreement (MNDA), which must be signed by both Solten Ventures LLC and the Client before the review begins.

4. THIRD-PARTY TOOLS Our review may utilize specialized diagnostic software to map your organization's logic. These tools are industry-standard and compliant with SOC2 and GDPR security protocols.
